Sir:

In response to the Official Action mailed September 11, 2003, applicant hereby submits the following remarks:

Reconsideration and allowance of the above-referenced application are respectfully requested. Claims 1-22 are unchanged and remain pending in the application.

Claims 1-22 stand rejected under 35 USC §103 in view of U.S. Patent No. 6,115,385 to Vig and U.S. Patent No. 6,560,229 to Kadambi. This rejection is respectfully traversed.

Each of the independent claims 1, 10 and 17 specify an integrated network switch having a switching module and configured for switching a layer 2 data packet within a network having a plurality of subnetworks. Moreover, each of the independent claims 1, 10, and 17 specifies that the switching module includes a plurality of address tables for storing the layer 3 switching information for the respective subnetworks, where each address table is configured for storing host identifiers for a corresponding subnetwork.
